EXPERIENCE

Full Stack Developer
Mar. 2020 - Present

Polycea (formerly Polyconseil) - Paris, France

Development and maintenance of web projects for private clients and French government agencies.

- Tech lead for a team of 3 developers
- Upgrade and adaptive maintenance on a sovereign project at Ariane Group
- Helped build a microservices architecture from the ground up
- Maintained a complex SSO system (Keycloak) over several years
- Long-term MCO of multiple government platforms

React · TypeScript · Node.js · PostgreSQL · Java Spring · Keycloak · Docker · Postgis

Full Stack Developer
Jul. 2017 - Present

Microbusiness - Paris, France

Self-employed under the French micro-enterprise regime.

- Built an iOS/Android audiobook app for children (Flutter)
- Tax declaration platform maintained for 8 years
- Personal project with over 100,000 monthly visitors

Next.js · Golang · Laravel · Docker · PHP · PostgreSQL · Flutter

Intern — CRM Maintainer
Jul. - Dec. 2019

Danone Waters - Paris, France

Final-year internship. Maintained the CRM used by around a hundred sales reps in the field — user support, bug fixes, small improvements.

- Day-to-day support for a non-technical user base
- Bug fixes and usability improvements on the CRM

Intern — Full Stack Developer (then Freelance)
Jul. 2018

MpAssociés - Paris, France

M1 internship at an accounting firm. Built an income declaration platform, then continued maintaining it as a freelancer after the internship ended.

- Built the platform using Laravel and React JS
- Ongoing maintenance and new features over several years as a micro-entrepreneur

Laravel · React JS

PROJECTS

Audio Stories App
An Apple and Android app for distributing audiobooks for children.

cherubins.app

Search Engine for French Churches
A website to search for masses and churches in France.

trouverunemesse.fr
